## **Downloading Flight Logs from QGroundControl**

To download the Flight Log from QGroundControl

1. On a PC, download QGroundControl onto the computer using this link: https://d176tv9ibo4jno.cloudfront.net/latest/QGroundControl-installer.exe

- 2. Install the program.
- 3. Place battery atop the vehicle and plug into battery lead.
- 4. Power on the vehicle

5. Plug in a USB-A/C to USB-C cable between the back of the vehicle and the computer. (USB-C port on the back of the payload shroud).

- 6. Open QGroundControl. The vehicle should connect.
- 7. Click the Q icon at the top left corner of the screen.

## 8. Select 'Analyze Tools'

9. You should now be in the 'Log Download' tab already. Hit 'Refresh' on the right side of the screen.

	~						
	Log Download	Log Download	allows you to download binary log fil	es from your vehicle. Click	Refresh to get list of availab	le logs.	
(	GeoTag Images	Id	Date	Size	Status		Refresh
	MAVLink Console						Download
6	MAVLink Inspector						Erase All
J	Vibration						Cancer

10. Click on the top log in the list (check the date, but they should be chronological), and select 'Download' on the right side of the screen.

11. Email the downloaded .ulog file in a reply-to-all in this email.
